Design

MVX Injection Packer is designed to use for injection of epoxy resin and polyurethane resin onto cracked concrete structure.

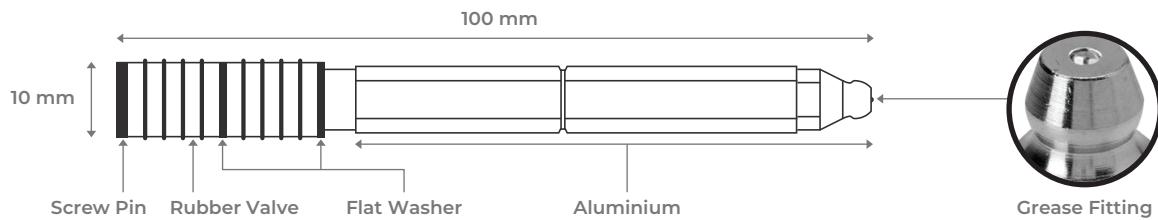

It is equipped with a grease head nozzle which can prevent the slurry from being sprayed under high pressure.

AREA OF USE

- Concrete structures, columns, slab cracks, high pressure injecting epoxy resin
- Basements, underground garage and passage, water leakage cracks in concrete
- Roof concrete slab cracks, wall and pipes, water leakage and water blockage
- Subway stations, tunnels, culverts, sewage treatment pond, water leakage cracks in concrete and water blockage

➤ Packaging

10mm x 100mm per piece, 100 pieces per pack
